How we work

Possibilities Africa (PA) works through Community-Based Organizations specifically created to bring pastor leaders and their members together for community transformation. We refer to these groups as Community Integrated Financial Associations (CIFA). Through these CIFA groups, PA mobilizes, equips and empowers community members to take responsibility for the improvement of their way of life.

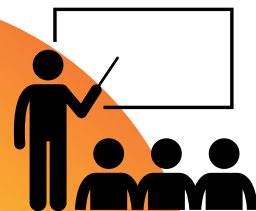

Your part

Introduce PA to your community and participate in the process of mobilizing the pastors

Invest in training of pastors by financing their accommodation, training materials and meals during training sessions
